## Introduction

Welcome to **The OzBoy File – The Truth About The  
Lockerbie Plane Bombing** sit back and enjoy this book.

There has been much written and said about this bombing over the years some of it true, allot of it rubbish, propaganda and lies, so in doing this book up I just wanted to put together a book cutting out the hype and dis-information and just give people the facts only.

Then let people decide for themselves, at the end of the day whether you believe what is written here and the tons of

information collected State Sponsored Terrorism carried out by the Police, Military and Intelligence Agencies isn't going to stop until we get the message out to people who really is doing these terrorist Acts and Why?

Other wise if you're a dummy that believes everything the Government and Mainstream Media tells you, best of luck you want to hope your wife, children, family and friends are never caught in one of these False Flag Terrorist Attacks because I wont feel sorry for you for being so dumb in the first place for believing the Government, Police, Military and Intelligence Agencies would never do such a thing.

So lets get onto the book.

## The Official Story

The official story goes like this On December 21, 1988, Pan Am Flight 103 heading from London's Heathrow International Airport to New York Kennedy International Airport exploded en route over Lockerbie, Scotland.

The flight originated in Frankfurt, Germany, which was where explosives –packed into passenger luggage—were placed onto the flight after being ferried to Frankfurt on a flight from Malta.

The explosion killed all 259 of the passengers and crew, as well as 11 residents of Lockerbie.

Investigations determined that Semtex, a plastic explosive, was the cause of the aircraft's shattering.

The explosives were wired to a device that measured barometric pressure connected to a timer.

These were placed inside a portable radio/cassette player, and packed in a regular suitcase.

It has never been determined how the luggage made it onto the aircraft.

The explosives were triggered when the barometric pressure inside the luggage hold fell beneath a certain level during the first leg of the Pan Am flight, which began in Frankfurt.

\*\*\*\*\* It should be noted Semtex is a Military Grade Explosive you cannot buy this at the local hardware store, so automatically that tells us who is possibly behind this bombing, people connected to Military Explosives or have access to them.

Checking with my old friend Ex- Col Ivan Boltahish who has taught bombing making with the Russian Military and with the KGB the barometric pressure device, similar devices can be purchased at any \$2 Shop so to speak, making it hard to identify the possible bomb maker or Police, Military or Intelligence Agency behind the bombing.

## Chapter 1

### Who Was Really Responsible For This Attack

So who was really responsible for this attack, lets have a look at the truth in point form, lets also see what was happening politically behind the scenes.

- U.S. Navy Commander orders the shoot-down of an Iranian airliner killing 290 people, followed by July 4 rejoicing of Americans on July 4 holiday.
- Iranian officials, properly outraged, vow to retaliate.
- Pan Am Flight 103 is blown apart over Lockerbie. Iranian officials no longer discuss retaliation. Evidence points to Syrian-based PFLP group and Iran.
- Iraq, funded and armed by Reagan-Bush administrations, and encouraged by U.S. consul, invades Kuwait.
- President George Bush (Sr.) needed Syria's cooperation in the planned attack on Iraq, known as the Gulf War.

If the Syrian-based terrorist group was charged, Syria's cooperation would be blocked.

Since Libya had been a favorite target of President Reagan since Libya objected to U.S. Navy maneuvers in Libya's territorial waters, it was decided to build a case against Libya, and ignore the overwhelming evidence involving Iran and the Syrian terrorist group.

### Department of Defense Document Identifying the Actual Murderers

Segments in a Department of Defense document—marked secret—identified Iran and the Syria-based PFLP group as responsible for the Lockerbie bombing.

This information is kept from the American people by U.S. media and members of Congress.

The last paragraph in that multi-page document states:

[http://www.defraudingamerica.com/NOFORN\\_report\\_identifying\\_bombers.pdf](http://www.defraudingamerica.com/NOFORN_report_identifying_bombers.pdf)

Mohtashemi is closely connected with the Al Abas and Abu Nidal terrorist groups.

He is actually a long-time friend of Abu Nidal.

He was recently paid 10 million dollars in cash and gold to these two organizations to carry out terrorist activities and was the one who paid the same amount to bomb Pan Am Flight 103 in retaliation for the US shoot-down of the Iranian Airbus. [Underlining added.]

That Department of Defense document clearly stated that Iran and the Syrian-based Abu Nidal group (PFLP) was responsible for the bombing of Pan Am Flight 103—directly opposite of the political statements and those of Department of Justice personnel.

Think for a moment of the implication of implications of the American people being lied to in this fashion, protecting the murderers of 270 people, shifting blame upon an innocent Libyan and upon a nation that suffered from U.S. sanctions, involving an endless series of criminal acts directed by FBI-DOJ personnel with the knowledge—or direction—of a president of the United States, and joined by an endless number of groups profiting from the scheme and conspiracy!

Further, the lies, the criminal acts, the scheme, being supported by whole groups of people, some profiting by aiding and abetting one of the biggest hoaxes played on the people of an entire nation.

Then, do a little more reading to understand how this deception and culture enabled to occur a series of even worst terrorist attacks and where they led to, including two wars that would not otherwise have occurred.

And this is only one of multiple areas in which the sheep-like American public has been defrauded during the last half century!

From research the Al Abas and Abu Nidal Terrorist Groups are CIA controlled, but have been funded by Iran.

So here we have a Syrian Terrorist Group controlled by the CIA, but scamming Iran for funding and going about doing Terrorist Attacks for the American CIA.

And there you have the Lockerbie Plane Bombing in a Nutshell.

## Chapter 2

### The Set Up For The Patsies Begins

FBI-DOJ Conduct and U.S. Media Cover-Ups, The Syrian-based terrorist group that actually placed the bomb on Pan American Flight 103 was protected from prosecution by FBI-DOJ personnel, and was free to continue terrorist acts against U.S. targets.

FBI-DOJ personnel plant bogus evidence miles from the main crash scene in a scheme to shift blame from the actual murderers, charging Libya with orchestrating the bombing of Pan Am Flight 103 over Lockerbie.

The evidence was a half-thumb-size timer fragment found in a muddy field miles from the main wreckage, months after the bombing event. (That timer fragment was obtained from a former employee of the Swiss manufacturer.)

FBI-DOJ personnel pay \$3 million to a small Malta shopkeeper and his brother to testify falsely about the purchaser of children's clothes allegedly found in the suitcase allegedly containing the bomb that passed as an unaccompanied bag through five security check points.

FBI-DOJ personnel pay a discredited CIA informant to provide false testimony about the identity of two Libyans that allegedly put the bomb-carrying suitcase on a connecting flight departing Malta.

FBI-DOJ personnel offered \$4 million to the owner of the company that produced the timer mechanism to provide perjured testimony—and who refused to become implicated in the scheme.

FBI-DOJ personnel falsely charged two Libyans with the murder of 270 people, while covering up for the Syrian-based group that was committed the murders—under contract with Iran to avenge the U.S. Navy shooting down of an Iranian airliner that killed 290 people.

Small town Scottish police, prosecutors, and judges, under guidance by FBI-DOJ personnel, then become part of the greatest tragedy-related frauds in the world's history.

The U.S.-orchestrated scheme then required the cooperation of Scottish trial and appellate judges to engage in blatant judicial corruption even worse than is prevalent in many U.S. courts.

The Libyan, al Megrahi, the immediate victim of that U.S.-directed fraud, was released from prison on condition that he drops the appeal that contained overwhelming evidence of the scheme. U.S. media continues the cover-up of the high-level criminal activities.

The corrupt culture in the FBI-DOJ continues, and enabled to occur a series of catastrophic terrorist successes, requiring the continuation of the cover-up by U.S. media personnel.

## Chapter 3

### Criminal Acts Perpetrated by Employees of the Highest Law Enforcement Agency in the United States

FBI personnel tampering with evidence, including placing evidence in position in order to blame innocent people.

That was a thumb-size section of a timer.

The importance of the timer was to implicate Libya, which had ordered some of the timers.

The timer that was "planted" by FBI agents was purchased from a former employee of the Swiss manufacturer.

The owner of the company stated that the timer fragment that the FBI introduced was not the type of timer sold to Libya, but this information surfaced after the end of the trial.

FBI personnel paying money to a former employee of the Swiss manufacturer to obtain evidence placed at the crash area.

That former employee later signed a sworn declaration admitting the sale to FBI agents and his perjury during the

trial.

FBI personnel paying money to a shop owner to testify falsely against, contradicting his earlier statements, and then admitting his perjury after the trial ended.

FBI personnel threatening a witness if he were to testify that would show the FBI's corrupt practices.

Pressuring Scottish police to join in the conspiracy, which was then aided and abetted by Scottish judges.

Aiding and abetting these serious crimes were: U.S. media people and media corporations that withheld the information from the American public.

Lawyers for the Fight 103 victims' families, who stood to lose tens of millions of dollars if they revealed the existing evidence that the Libyan and Libya were not involved in the 270 murders.

The actual group that placed the bomb was then free to conduct other terrorist attacks.

U.S. Department of Justice personnel then planted evidence it had purchased, bribed witnesses, and then charged Libya with engineering the bombing and charged two Libyans with placing the bomb on a connecting flight.

Major judicial irregularities were followed by convicting one of the two Libyans.

United Nations' representative and others seeking justice accumulated evidence of massive corruption by FBI-DOJ personnel, Scottish prosecutors, and Scottish judges.

Combined with media publicity in Great Britain (blackouts in U.S. media), Scotland was forced to authorize a second appeal and reluctantly agreed to the submission of additional evidence.

After repeated efforts to block and delay the hearing on the appeal—where the massive evidence would become known to the public that revealed the actual bombers and the massive obstruction of justice by Scottish, British and U.S. personnel, the convicted bomber, al Megrahi, was offered his release—but only if he dropped the appeal.

No interest was shown in the evidence that would have publicly revealed the real bombers—and the criminal obstruction of justice by U.S., Scottish personnel.

In Europe, victims' families approve of the release of the victimized Libyan and demanded an outside investigation to identify the actual bombers.

But in the United States, partly due to the endemic cover-ups and dumbing down of the people, they were outraged that a mass murderer could have been released.

Little did the American people know that among their "leaders" were people whose corruption had protected the actual bombers and orchestrated the worst combination of prosecutorial, judicial

corruption that had already has astronomical blowback effects.

Fabrication of evidence to divert attention from the actual bombers for several reasons

Filing false charges against two Libyans that were innocent.

Crime scheme and series of criminal acts to divert attention from Syrian-based terrorists that were paid money by Iran to place the bomb on Flight 103, and divert the blame to two innocent Libyans and fabricate Libya as being behind the murders.

Threatening witnesses whose testimony would have exposed the hoax.

Paying money to provide false evidence against the accused Libya, al Megrahi.

Paying money for perjured testimony against al Megrahi.

All of the above criminal acts were under the direction of FBI personnel, apparently carrying out a scheme by White House politicians, primarily President Ronald Reagan.

Scottish police and Scottish judges, and British politicians, aided and abetted the scheme.

Massive evidence of the crimes repeatedly published in the British media, while U.S. media people and media corporations engaged in a total cover-up, protecting the criminal acts by FBI and other government personnel.

The evidence was placed into appeal briefs filed in the Scottish courts.

The highest Scottish court issued a decision addressing the massive fraud and the appeal was to be heard toward the end of 2009.

To prevent the appeal from progressing, and thereby keep the duped American public from learning about these matters the falsely convicted Libyan, al Megrahi was pressure to drop the appeal so as to obtain his release, using his terminal cancer condition as the basis.

Despite the overwhelming evidence of the greatest terrorist-related fraud at that time, requiring an independent investigation in Great Britain and in the United States, politicians in both countries (and FBI-DOJ personnel) blocked any possibility of such a hearing.

That protected the careers of FBI-DOJ personnel and the politicians who directed or knew of the massive conspiracy related to 270 deaths among the evidence presented was that of a United Nations representative who exposed the joint British and U.S. hoaxes and cover-up of the actual murderers.

The tragic plight of Libyan, al Megrahi, falsely charged with the deaths of 270 people on Flight 103, while key people in the United States engaged in criminal acts and conspiracy that protected the guilty and made a Libyan to suffer he consequences.

Upon his release in October 2009, U.S. politicians condemned the release of a mass murdered that they knew was innocent, and who suffered because of their criminal cover-up of the crimes.

This picture of Megrahi upon his release after the FBI and U.S. politicians got through with him!

Every decent American should feel shame for what was done to him, and the conduct of their leaders!

Assisting in the perpetration of these crimes were U.S. aviation lawyers, who knew from their knowledge of the evidence available in Great Britain that under the direction of U.S. personnel, the actual murderers were protected while prosecuting an innocent Libyan—and facilitating the political desire to blame Libya as masterminding the crime.

If U.S. aviation lawyers—representing the families of the Flight 103 victims had revealed the truth, that the Libya and Libya were not responsible for the 270 deaths, they would have lost tens of millions of dollars in fees.

And if the U.S. families of the U.S. victims had acted to have the evidence widely available in Great Britain made known in the United States, they would have lost the \$10 million paid by Libya to have the damaging financial sanctions removed.

Those sanctions were part of the scheme to falsely charge Libya with being responsible for the 270 murders.

Also suffering from this hoax were the Libyan people, adversely affected by the financial sanctions imposed by U.S. politicians and the United Nations.

In Great Britain, Dr. Swire, who lost a daughter on Flight 103, aware of the evidence and the fraud perpetrated by U.S. and British government personnel, funded the legal appeal for the Libyan, al Megrahi, that was falsely charged with the murders and who spent most of the remaining part of his life in prison.

Also assisting in the perpetration of this hoax upon the American people were U.S. media people and media corporation that kept from the American people the overwhelming amount of evidence available in Great Britain.

Covering up for a criminal offense is a crime. The people who knew of the multiple criminal acts involving employees of the U.S. Department of Justice in the Lockerbie matter included (a) members of Congress; (b) media personnel (c) federal judges who were repeatedly advised of these corrupt acts through court filings by former federal agent Rodney Stich, and others.

### United Nations Reports of Massive Fraud in The Lockerbie Investigation and Prosecution

The following are some of his reports, which also refers to evidence from other sources, including witnesses that were paid to give perjured testimony, a witness that provided a timer that was then planted by FBI or CIA agents, and much more.

Probably never in any judicial proceeding, or terrorist trial, has there been such a great amount of blatant corruption—and evidence showing the corruption—engineered by the United States through corrupt personnel in the U.S. Department of justice, with the knowledge of presidents, members of Congress, and media people.

# Sampling of U.S. "Leaders" Making Political Points on U.S.-Generated World-Class Frauds

In 2009 and continuing in 2010, U.S. media personnel and U.S. politicians went into an endless frenzy over the release of alleged Libyan bomber:

Media frenzy connecting BP with release of al Megrahi.

President Barack Obama's counterterrorism adviser, John Brennan, stated the Libyan "bomber," al-Megrahi, should be sent back to prison. (BBC News August 20, 2010)

That bizarre statement that Libya should, or would, return Megrahi to prison was uttered after President Obama was advised of the corruption stated in a letter and fax dated July 15, 2010. President Barack Obama.

A August 13, 2010, letter was sent to FBI Director Robert Mueller, referring to the pattern of investigative and prosecutorial misconduct by FBI personnel relating to the downing of Pan Am Flight 103 over Lockerbie, and the catastrophic ripple effects that conduct and culture enabled to occur.

That letter was sent to Mueller by Rodney Stich, the head of a coalition of other former government agents and insiders, following Mueller's letter sent to Scottish Cabinet Secretary Kenny MacAskill following the release of the alleged Libyan bomber.

One of several earlier letters sent to FBI Director Robert Mueller , October 18, 2001, while the FBI under his guidance was carrying out the greatest series of corrupt acts related to the Lockerbie bombing, shifting blame from the Syrian-based group and Iran to two innocent Libyans and Libya.

The catastrophic ripple effects from that scheme continues in inflict grave harm upon national security and the lives of Americans.

Letters and faxes to Senate Foreign Relations Committee and Senators Lautenberg, Schumer, Menendez, Gillibrand, Lugar: July 14, 2010.

Letters and faxes to Secretary of State Hillary Clinton, July 15, 2010.

Letter list directly focusing on the Lockerbie scandals, showing members of Congress and others being informed of the crimes, and then continuing the cover-ups, which then continued in position the same people, which then enabled even greater calamities to occur.

Recent notices to the Wall Street Journal addressing their cover-ups that protect high-level criminal acts of DOJ personnel and at least two U.S. presidents relating to the Lockerbie matter.

Fax of July 21, 2010, to Wall Street Journal attaching copy of letters sent to President Barack Obama and the Senate Committee on Foreign Relations. Fax of August 11, 2010.

While this massive amount of evidence is available to the American people, only the British, including the British families of those killed over Lockerbie, were demanding that the actual murderers of 270 people be addressed.

# Knowledge of Massive Fraud Related to 270 Murders, And the Cover-Ups and Protection of the Guilty

Letters were sent to many recipients following the shallow outrage with the release of the Lockerbie "bomber," making a record of people being notified of the massive evidence contradicting the hoax perpetrated upon the gullible—and receptive—American public, especially where they profited financially go ignore the evidence.

Another in-the-mirror look at the depths to which the Americans' morals have sunk!

## Real Heroes Among this Sordid Drama

Among the people involved in this sordid scheme were some true heroes. One was United Nations representative Hans Koechler, who issued numerous reports on the ongoing corruption throughout the trial and appeal process.

His web site: <http://hanskoechler.com/koechler-contact.htm>

And the British doctor, Dr. Swire, who lost his daughter on Flight 103, and had more courage than the American families that went along with the scheme.

With the most basic internet search the families of the American victims could have—and probably did—know that Libya and the two Libyans were totally innocent.

But they would have lost millions of dollars extracted from Libya as the country was blackmailed to pay in order to halt the sanctions that were devastating the economy and threatening to bring fanatic Muslims into control of the government.

### Megrahi Internet Site and Appeal Brief

Normally it could be expected that once an alleged criminal is released from prison, he would not be especially interested in proving his innocent.

But Megrahi went to great length to do just that.

He has a Internet site <http://megrahimystory.net>.

### Statement on behalf of Abdelbaset Ali Al-Megrahi

June 30th 2010

It has recently been wrongly reported, that Mr. Al-Megrahi refused to give his consent for the Scottish Criminal Cases Review Commission to release documents relating to him, referred to in the Commission's Statement of Reasons on his case, and its appendices, that he and his lawyers provided, either directly or indirectly, to the Commission.

The true position is that Mr. Al Megrahi, through his Libyan Lawyer, made it clear to the Commission in a meeting on April 12th 2010, that he was happy for the documents to be released, providing all the official bodies that provided documents to the Commission agreed to the release of all of those documents.

These bodies include the police, the Crown Office, the Foreign Office, and the intelligence service, or services, which provided the secret documents referred to in Chapter 25 sources of the Statement of Reasons.

Mr. Al Megrahi's position has always been, and remains, that all information relating to the case should be made public.

Al Megrahi, the victim of criminal attacks by people in the highest law enforcement agency of the United States, aided and abetted by White House presidents, U.S. politicians making political points, and by U.S. media, and suffering from the effects of incurable cancer and the treatment side effects.

In the United States, rather than show sympathy for the enormous harm done to him by the corruption involving personnel of three government, the abuse continued.

Contempt for the 270 Murdered Victims

If any of the 270 murdered victims on Pan Am Flight 103 could speak, they would be outraged at the series of criminal acts that protected their murderers; that corruptly charged with their murders two innocent sources that were also victims of the Lockerbie fraud schemes.

And they wouldn't be pleased with some of their families profiting from the scheme that shifted blame from the actual murderers to two innocent parties.

### Why these High-Level Crimes will Never be Acted Upon

The huge numbers of people and groups directly involved, many of whom are still in control and responsible for protecting the nation will never allow this information to become known. In the United States, the people complicit include, for instance

FBI-DOJ personnel, including the directors of the FBI, U.S. attorney generals.

CIA personnel that played a relatively minor role.

At least two U.S. presidents that knew of parts of the schemes and may have played a role in ordering the scheme carried out.

For instance, the scheme facilitated President George H.W. Bush (Sr.) to bring together a coalition necessary to attack Iraq in 1990.

Attention had to be directed away from the Syrian based bombers when President George H.W. Bush (Sr.) decided to go to war with Iraq after Iraqi invaded Kuwait.

He needed the cooperation of Syria (the location of the bombers) and Iran (who paid for the placement of them bomb on Pan Am

Flight 103). President Bill Clinton then became implicated.

The huge numbers of people and groups that became complicit through cover-ups

Members of Congress who were repeatedly informed of these activities.

Sampling of letters are available to show such notification.

Media personnel in the United States.

The overwhelming amount of evidence available on their news sources, and on the Internet—a standard research source—that showed the corrupt conduct associated with the Lockerbie investigation and prosecution was not only withheld from the American people, but media personnel were complicit in publishing the falsehoods of their government sources.

This has been standard for decades, making possible numerous personal and national tragedies directly and indirectly resulting from the high-level cover-ups.

The lack of information pushed to the American public by the print and TV media, dumbing down the people to where major information gravely affecting the people is replaced by overwhelming attention to such trivia as Lady Gage, Nicole Smith, Tiger Woods, sport figures, Michael Jackson, and political aspirants for U.S. presidents that show an intelligence level more appropriate for dog pond managers.

Although various amount of this information has been available to the American public for years through books, radio and TV

appearances, Internet sites with half a million hits a months, only a handful have shown any interest.

The remainder have acted to insure that these conditions and catastrophic events' will continue.

People complicit in Scotland

Scottish police, prosecutors and judges at every level.

Involvement of British politicians was probable.

### Among Reasons for U.S. Media Cover-Ups

Among the reasons why U.S. media personnel and corporations withholds the truth about high-level corruption are the following:

Many media people have for decades been on the secret payroll of the CIA and other government entities.

Protecting their government sources that provide them with news handouts, avoiding losing this source by covering up unfavorable news.

Herd mentality of media personnel, following the safe course of hewing to the establishment media.

Lack of courage by media personnel.

Editor's blocking of reporters' stories of high-level corruption.

Knowledge of what has happened to other reporters/journalists that report high-level corruption.

Dan Rather.

Operation Tailwind producers.

San Jose Mercury reporter reporting CIA drug smuggling.

## Conclusion

I hope you have enjoyed reading **The OzBoy File – The Truth About The Lockerbie Plane, Bombing**, I think we have well and truly destroyed the case against the patsy they deliberately set up.

What this story will really show corrupt American politicians, FBI and the Mainstream Media is and to what extent they will go to setting up innocent people for their own corrupt evil ends.
